MEDICAL ADMINISTRATIVE/CLINICAL EXPERIENCE:

Dr. Fullerton is currently the **Medical Director** for **Aegis of Corte Madera, CA** [a **one-hundred and twenty (120) bed Assisted Living & Alzheimer's Assisted Living Facility**] for the past nine years. Within this high-end facility, Hampton Health, LTD has implemented the business methods entitled PALS™ [Physician Assisted Living Solutions] for providing medical support, mid-level practitioner support, and extending geriatric and palliative education on-site for medical students, medical residents, PA/NP students, and nursing students-along with other inter-disciplinary and multi-disciplinary team members. Dr. Fullerton more recently has become the Chief Medical Director and Bio-Medical Clerkship Director/Coordinator for the ninety (90) bed AgeSong AL community in SF while implementing their PALS methods. Dr. Fullerton (and his staff) also share an on-site AL office at the one-hundred (100) resident Countryside of Lafayette where they routinely also have a "house call-style" geriatric and palliative care practice in the East Bay.

For several years, Dr. Fullerton additionally has served as the **Medical Director for the one hundred (100) bed Healthcare Center SNF and Assisted Living (PCU) at The Redwoods of Mill Valley (CA)**. He was additionally appointed the **Medical Director for the one hundred (90) bed Country Villa (SNF) of San Rafael (CA)**, as well as the **Medical Director of the (198) bed Country Villa SNF/Rehab of Novato (CA) over the past five years**. **Dr. Fullerton was appointed the medical director of the fifty-two (52) bed SNF in San Rafael-Northgate Healthcare Center**. **Dr. Fullerton also functions as the Medical Director/Consultant for the well-established Eating Disorder (ED)/Chemical Dependency (CD) inpatient unit(s) in San Francisco, CA called New Dawn since 2011.**

He has functioned previously for many years as the **Clinical Director (and chief hospitalist)** overseeing numerous medical-surgery wards, including HIV/AIDS, geriatrics, post-transplantation, addiction medicine, acute rehabilitation, general medical/surgical wards, as well as Hospice & Palliative Medicine patients @ **Garden Sullivan Hospital (SF, CA)** and other local facilities. Later he practiced as a **de facto hospitalist at Petaluma Valley Hospital (PVH) until 2003**. He has also served as **Vice Chief (and Acting Chief) of Medicine & Director of Employee Health (for the 4000 employees on the hospital compound)** at the teaching hospital (in conjunction with King Saud University) abroad at the **King Khaled Eye Specialist Hospital {KKESH-Riyadh, KSA}**, where he also functioned as the **Co-Clinical Director of the Research Laboratory, Director of the Systemic Manifestations of Ocular Diseases Hospital-Based Clinic**, and served

MEDICAL ADMINISTRATIVE/CLINICAL EXPERIENCE (con't):

as private medical consultant to members of the **Saudi Royal Family (including the Minister of Health)**.

Dr. Fullerton is considered: “the grandfather (of the business methods) of the current hospitalist movement” by a noted US hospital historian and author who recently interviewed Dr. Fullerton in order to complete the manuscript for his upcoming authoritative historical text book.

He was named: **Director of Geriatric and Palliative Education & Training and Key Faculty** for the **Internal Medicine Residency Program at St. Mary’s Medical Center (SMMC) in 2006 (SF, CA)**. He is also the **Geriatric Physician Director of the Inter-Disciplinary Team (IDT) for the fifty (50) resident medically supervised St. Mary’s Adult Day Care Health Center (SF, CA) and has clinically instructed SMMC’s Hospital-Based Urgent Care Clinic on numerous occasions each month for the past several years.** Dr. Fullerton was appointed part-time **Hospice Medical Director** of a large Tri-County **Hospice by the Bay** since 2009. Dr. Fullerton is currently assisting with implementing within AF Bay Area urban AL units with innovative “Bio-Medical” models of care and training in Assisted Living Communities in the greater Bay Area, augmenting the “medical support of the traditional (psycho-) social model” as outlined above.

MEDICOLEGAL (EXPERT) EXPERIENCE:

Over roughly the past eleven (11) years, Dr. Fullerton has provided independent medical expert testimony and clinical forensic medical testimony in approximately one hundred seventy-five (175) cases and reviewed over seven hundred fifty (750) cases representing no more than 10% of his professional time. Dr. Fullerton has focused his medical expertise in mostly personal injury, medical malpractice, determinations of Medicare Medical Necessity matters, and civil & criminal cases alleging elder abuse (including homicide)-at either discovery deposition or at trial testifying for both plaintiff and defense cases, respectfully. In fact, over these past five years in particular, Dr. Fullerton has developed a specialized expertise in determining MediCare medical necessity cases to both “ferret out” alleged fraudulent practices (including billing) in long-term care (LTC) cases, including regional Hospice Medical Director Certification Cases, as well as to successfully defend other LTC facility “chains” from allegations of MediCare impropriety, including allegations of Fraud & Abuse, respectively. To wit, Dr. Fullerton has also worked in matters related to professional allegations from the California Medical Board re: matters tantamount to allegations of “unprofessional conduct” (as well as failure for various CA physicians to comply with restrictions or limitations of licensure or breaching the terms of probation previously handed down from BMQA).

Specialty focus and areas of expertise, include: Adult Hospital Medicine (including: medical centers with training programs), Ambulatory Primary Care (including: Internal Medicine & Geriatrics, with experience instructing and working with mid-level practitioners), Geriatric approaches to Gero-Psychiatry (particularly in Long-Term Care), Treatment of the Immuno-compromised Host, Long-Term Care (including: SNF, Sub-Acute Rehabilitation, Assisted Living-with Secured Dementia Units & LTC Medical Directorships & Hospice Medical Directorships), Hospice & Palliative care units, Home Care, and Elder Abuse Defense cases (both Civil and Criminal). Additional areas of testimonial expertise involve cases re: preventable falls, pressure wounds, pain management, addiction medicine (including forensic toxicology/DUI defense cases), Capacity & Estate Dispute determinations and Legal Insanity defense cases. He is ‘vetted’ by the Department of Homeland Security, the Department of Justice, the Office of The Inspector General and the FBI to testify in cases with allegations of Medicare Fraud & Abuse for the DOJ, FBI, & OIG as well as in LTC Regulatory cases for the DHHS.

ADDITIONAL INFORMATION:

Additional involvement re: National Lectures, Symposia, Areas of Research, Listings of Forensic Testimony, National Specialty Medical Society Political Actions Committees (PACS and SIGS)-including Board of Directors and Committee experience, and Letters of Reference-available upon request.
